

Reception Class Spring Update

We've only been back at school for three weeks and WOW haven't we been busy! Our super attitudes to home learning and zoom lessons have meant that we can get back to learning straight away.

Our phonics are fantastic and we have really been able to show that we know all our digraphs!

In maths we have been really focusing on our knowledge of number facts.

We have returned in time to see all our spring bulbs flower and even won a **GOLD AWARD** from the London Children's Flower Society who were particularly impressed with our recycled plant pots.

We had fun on science day learning about water filters - our muddy water came out clear! We also investigated helicopters.

We have learned about the Jewish festival of Passover and demonstrated kindness during Lent by conducting a litter pick around the school.

We're not sure we want an Easter holiday as we love being back at school!
