

Reception Summer Term Update

Doesn't time fly when you're having fun!

This term we made friends with the elusive Bog Baby and spent many of our Forest School sessions hunting for minibeasts and making them homes. We watched our caterpillars grow and become butterflies, although we haven't been able to spot them since releasing them at Forest School.

We have enjoyed using tools at Forest School and liked the shocked look on parent's faces during our assembly when we showed them what we had been using!

We travelled to Fruit Bat Island - our favourite topic of the year where we wrote fruit bat information leaflets, alliteration poems about fruit and made collages in the style of Henri Rousseau.

We did really well in our first Class Assembly.

The term finished with Sports Week - sports morning, Munchkins, gymnastics, yoga... Needless to say we are ready for a good long rest.

Thank you everyone in Reception for working so hard, being such kind and caring friends and trying your best in all we have done!

Happy holidays!
