

March 2023

Well, we have come to the end of another great term in Year 1! I am so proud of the children and how they have progressed in class.

The children have really enjoyed learning about The Storm Whale in English and have written some amazing facts about whales! The have continued to learn different sound families and will be looking to revise all Phase 5 sounds ready for the Phonics Screening next term.

In Maths we have been focusing on measurement, learning all about length, weight and capacity. The children continue to love RE and Geography lessons and have been creating maps for Mexico as well as making and identifying flags. The children have also had such an exciting term with Science; we completed lots of activities to do with our senses and loved our school chicks! We also have categorised animals, studying the five main groups, such as reptiles, amphibians, fish, mammals and birds. We will continue our art topic of 'investigating materials' and are looking forward to learning how to weave next term.

I cannot believe that we are more than half way through Year 1. We will continue to work hard next term, listening to one another and following the school rules of St James'.

I hope the children enjoy Easter and have a well-deserved break! Stay Safe and take care as always,

Miss McCarthy
